Courtesy Fill Service: Blue Flame Propane offers a "Courtesy Fill Service" to qualified customers. Your deliveries will be scheduled based on your consumption of gas in relation to the average outside temperature. Blue Flame Propane will calculate your deliveries to arrive when your tank gauge reads approximately 20%. Upon completion of the delivery, the tank will be full and the gauge will read approximately 80%.

Will Call Service: Will Call deliveries occur only at the request of the customer. We urge all "Will Call" customers to call their local office when their gauge reads 20%. Our customer service representatives will schedule your delivery on the next designated delivery day for your route.

Blue Flame Propane, Inc. is not liable for any damages caused because a customer runs out of propane. Gas consumption is the customer's responsibility. Check your tank frequently.
